

BLUE IGUANA

Also known as the
Grand Cayman
ground iguana

Proverbs 30:28

A lizard can be caught with the hand,
yet it is found in kings' palaces.

THE NESTING CHAMBER is built by the Blue Iguana mother and is formed out of soil, which she digs 20 feet underground to lay her eggs.

Blue Iguana Fact Sheet

- Blue Iguanas are only found in the Cayman Islands
- From the nose-to-tail they measure 5 ft (1.5 m) and weigh as much as 30 lb (14 kg)
- They prefer rocky areas and they start their day basking in the sun to warm up.
- With great vision they can detect shapes and motions at long distances.
- They live up to 70 years old.
- Blue Iguanas are the most endangered of the lizard family!
