

There are as many as 2000 different species of Jellyfish and possibly many more!

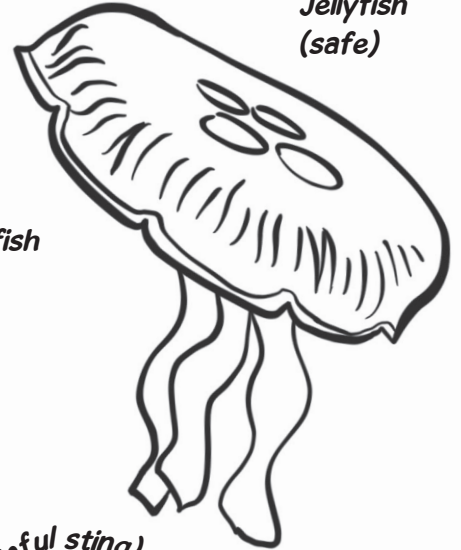

JELLYFISH

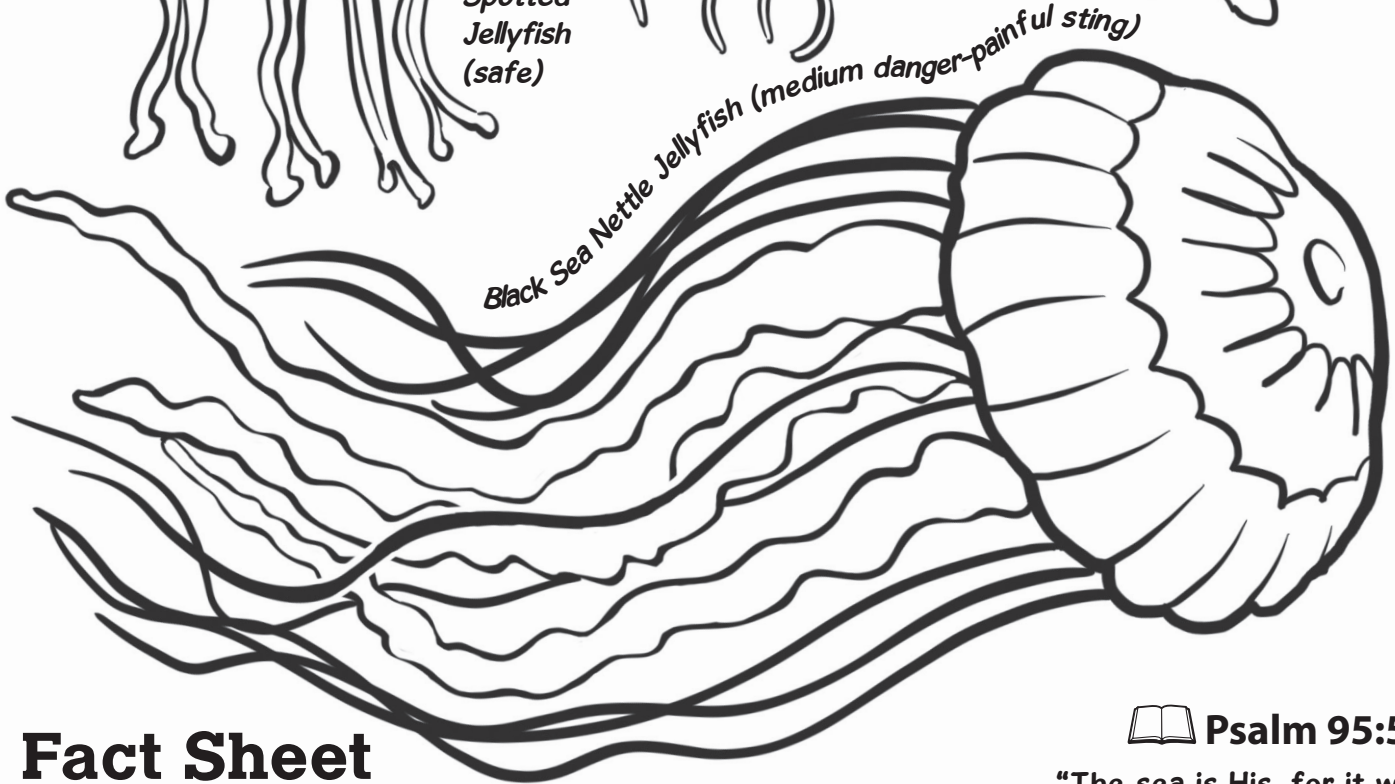

White Spotted Jellyfish (safe)

Box Jellyfish (deadly)

Moon Jellyfish (safe)

Black Sea Nettle Jellyfish (medium danger-painful sting)

Fact Sheet

- The largest jellyfish is the Lion's Mane Jellyfish. From top to bottom it can be 120ft long! While the sting is not deadly it can cause an allergic reaction in some.
- The smallest is the Irukandji box. It can be lethal. It's about 1cm in size!
- While some jellyfish are clear, others are very colorful—such as pink, yellow, blue, and purple, and often are luminescent.
- The white-spotted jellyfish is among the Cauliflower Jellyfish. It looks like it has cauliflower at it's base.

Psalm 95:5

“The sea is His, for it was He who made it, and His hands formed the dry land.”
