

# MEERKATS

*Suricata suricatta*

## Facts

- Meerkats are immune to some snake and scorpion venom.
- Meerkats make great babysitters! When the adults go out to hunt food, the babysitters stay back and watch the young meerkat pups.
- The black mask around their eyes helps keep the sun out.
- A group of meerkats are called a clan, mob, or gang. There can be 30+ members!
- They like to sunbathe in the early morning hours by standing outside the burrow in the sunlight.

**2 Thessalonians 3:3**

But the Lord is faithful, who will establish you  
and guard you from the evil one.
