

Oceanic WHITETIP SHARK

Matthew 4:19

And He said to them,
“Follow Me, and I will make you
fishers of men.”

Not So Lonely Sharks: Oceanic Whitetip Sharks are typically known for being lone hunters but they have fish travel with them from time to time—they are called pilot fish.

Pilot fish can be very territorial with the shark they swim with. They will eat scraps from the sharks meal.

Whitetip Shark Fact Sheet

- Oceanic Whitetip Sharks are scavengers
- They are known for hunting alone
- These sharks can be found in open oceans or shallow water
- They tip the scales at approx. 370 lbs.
- Oceanic Whitetip Sharks prefer warmer water rather than cold water.
