

Stained Glass Paper Art

TISSUE PAPER VERSION Difficulty (HARD)

Step 1

Step 2

Take your time. *note my guide image was the original, not the simplified one I created after finishing this craft. You don't have to exactly follow my guide. Be creative.

Step 3-4

TISSUE PAPER VERSION

ITEMS NEEDED:

- Print out the tissue paper guide page.
(If you don't have a printer center the image on your computer screen and trace the image to the paper.)
- tissue paper
- black construction paper
- glue (gluestick, or rubber cement, or a version that will not bubble the paper)
- string or yarn
- parchment paper (optional)

DIRECTIONS:

Step 1: Print out the tissue paper guide page.

Step 2: Cut strips from the construction paper

Step 3: Glue the strips following the guide page.
(Be careful not to glue your black strips to the guide page. Take your time. Don't worry about glue getting on both sides of your project. You won't notice it on the final craft.)

Step 4: Attach the string to top of the paper frame. You can make a frame from popsicle sticks if you like. Place the final project in a window of choice that gets good light.

**I also added a piece of parchment paper to the backside of my craft. Gluing it to the edges-this helps secure the craft without blocking any light from passing through. You can also place a heavy book on your craft until it dries completely to help flatten it out.*

Back side view
(before adding parchment cover)

Finished front view

HINT: You can try to cut the tissue paper into specific sections or just randomly apply the paper. Don't worry about the paper folding or overlapping. it will look neat on the finished craft. (See final example)

You can make any image into a stained glass craft art.
Be creative and have fun!

The story of Jesus' birth can be found in **Luke 2:1-20**.

Is there someone you can share this good news and this craft with?
